Is not the relative physical suffering of woman an injustice? From fifteen to forty-five-that is from the dawn of womanhood until the change of life - the average woman spends just one-third of that thirty years in suffering more or less great. Ten years taken out of her life. Ten years taken out of the powers, the pleasures, the possibilities of life, and ten years of care and pain added to the normal burdens of life that fall alike on man and woman.

IS IT FAIR?

How many a woman, aching and miserable, moaning in the loneliness of her darkened chamber has asked that question: "Is it fair?" But there is a more important question to be asked before that question which arraigns impartial Nature at the bar of reason, and that great question is:

IS SUCH SUFFERING NECESSARY?

If it can be proved beyond a doubt that women who have suffered in this way have been cured, made sound and whole, their pains banished never to return, then it is proved that such suffering is not necessary for some women. And if again it can be proved that ninety-eight women out of every hundred without regard to age or the gravity of their disease, have been cured by Dr. Pierce's Favorite Prescription, of irregularities, inflammations, ulcerations, female weakness, and debilitating drains, then it is also proven that such suffering is unnecessary to most women. These facts have been proved and are being proved every day in the practice of Dr. Pierce and his staff of nearly a score of assistant physicians. Such letters as the following are features of the daily mails of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., where Dr. R. V. Pierce presides as chief consulting physician.

"I wrote you for advice February ath, 1866," writes MrsLoma Halstead, of Claremore, Cherokee Nat., Ind. Ty. "I was
racking with pain from the back of my head down to my heels.
Had hemorrhage for weeks at a time, and was unable to sit up
for ten minutes at a time. You answered my letter, advised
me to use your valuable medicines, viz., Dr. Pierce's Favorite
Prescription. 'Golden Medical Discovery,' and 'Pleasant Pellets,' also gave advice about injections, baths and diet. To my
surprise, in four months from the time I began your treatment I
was a well woman and have not had the backache since, and
now I put in sixteen hours a day at hard work."

It is to be noted that Mrs. Halstead's cure began with a letter written to Dr. Pierce for advice. In tens of thousands of similar cases the cures

seeking advice, which is given absolutely without fee or condition. Free medical advice, is what Dr. Pierce offers every sick and ailing woman. Any one can make that offer. Only a physician can make it honestly and carry out its promise. The very trusting nature of woman makes her a mark for the schemes of the man who invites the correspondence of women, disguising himself as a woman, to win woman's confidence. Does any accredited doctor need to put on a woman's clothes to win a woman's confidence? The very fact that such disguise is used, and women are invited by a man to write to a woman," shows that the one offering advice is not a qualified physician, and assumes a woman's dress to cover up the fact,

GENUINE MEDICAL ADVICE

cannot be given by a man or woman who is not a physician. Remember too that there are grades in medical experience and skill, and that Dr. Pierce with his staff of nearly a score of trained specialists, his more than thirty years' experience, and his record of over half-a-million women treated, with ninety-eight in every hundred cured, offers you free, more skilful service than money can buy outside the great cities, where such skill can be bought, but only by the wealthy. The proof of Dr. Pierce's special skill lies in the fact that a large part of his cures have been performed in cases where the local physicians had utterly failed to give help.

physicians had utterly failed to give help.

"I write you to let you know the great benefit I have received from your medicines, and by following your advice regarding self-treatment at home," writes Mrs. Selma Erickson, of 400 Rice Street, St. Paul, Minn. "When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation. I just sat down and cried and said, "If I have to die, I will die at home with my two dear little ones." I had a miscarriage in May last and was weak all summer. Was not able to do anything. If I would get up and walk to the kitchen and back I would have to lie in bed for a day or sometimes two days. Last August I picked up one of Dr. Pierce's pamphlets and read of his wonderful work. I wrote to him for information and received an answer within five days from the day I wrote, advising me to try his medicines. Now I have used six bottles of his 'Favorite Prescription' and six of the 'Golden Medical Discovery,' and the result is just wonderful. I did not tell the doctors what I was taking. I have not been to any physician since the day I received the first letter from Dr. Pierce, and I feel as good as I ever did before I had the miscarriage. I was so nervous I had to have some one by my side all the time even in day time, and I could hardly eat anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I quit all the doctors and began taking your medicines I gained right along. I have gained so pounds within the last four months. I weighed 105 when I began taking your medicines I gained right along. I have gained as pounds within the last four months. I weighed 105 when I began taking your medicines (in August) and now I am up to my usual weight, 605. I cannot thank you enough for your wonderful medicines, and I wish you every success in the treatment of other cases as you have had in mine. I am as well and feel as good as ever."

HALF A MILLION WOMEN

could be put on the stand to testify that " Favorite Prescription" takes away the sadness of mind and pain of body which waiting mothers so often suffer; that it makes the baby's coming a natural thing, and therefore practically painless; that it gives strength to nurse and nourish the little one into robust childhood, and makes a "happy household chime for weans and wife."

Write to Dr. Pierce, and so avoid the unpleasant questions, indelicate questions, and offensive local treatments, generally considered necessary by the average practitioner. Your letter will be read in private, answered in private and its contents guarded as a private confidence. All letters are answered promptly, each reply being sent in a plain envelope bearing no printing upon it. Write without fee and without fear. Address Dr. R. V. Pierce, Buffalo, N. Y.
